

(A) AT1G43770 — TransGenic reproduces the alternative transcripts shared by TAIR10 and AtRTD3

alternatively spliced introns 16,549,898-16,549,980 +1 more

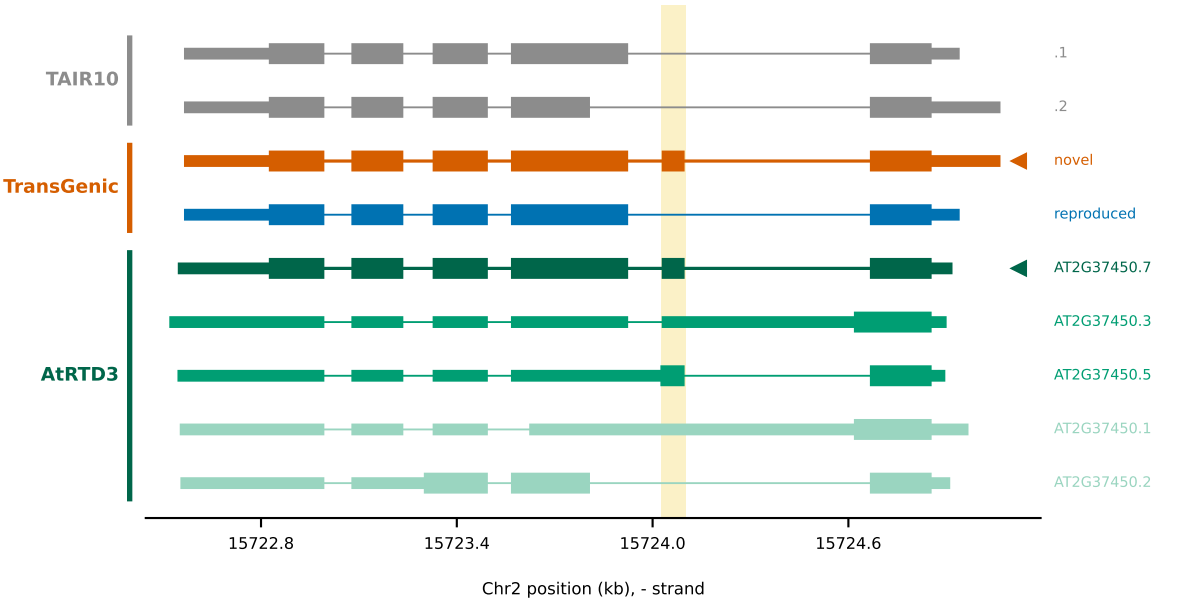

(B) AT1G44575 — TransGenic reproduces the alternative transcripts shared by TAIR10 and AtRTD3

alternatively spliced introns 16,871,960-16,872,043 +5 more

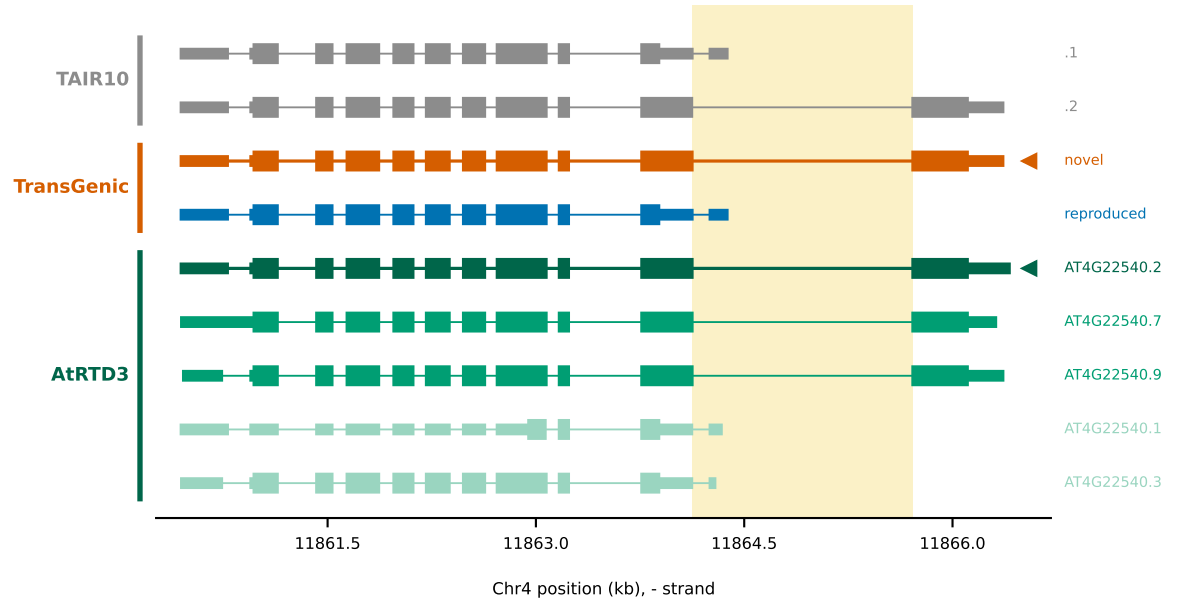

(C) AT2G37450 — TransGenic predicts an AtRTD3-supported isoform absent from TAIR10

novel exon 15,724,032-15,724,094 (63 bp)

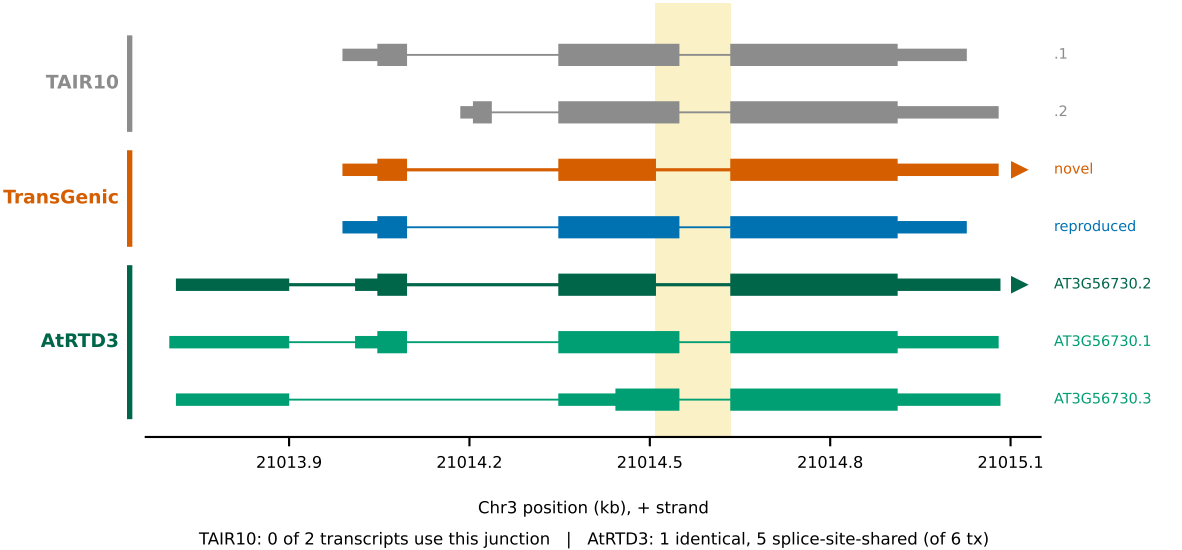

(D) AT4G22540 — TransGenic predicts an AtRTD3-supported isoform absent from TAIR10

novel junction 11,864,127-11,865,712

(E) AT3G56730 — TransGenic predicts an AtRTD3-supported isoform absent from TAIR10

novel junction 21,014,509-21,014,635

TAIR10 reference TransGenic (novel isoform) TransGenic (reproduced) AtRTD3 (exact chain match) AtRTD3 (supports highlighted feature) AtRTD3 (other isoforms)
