

AT3G13740 — TransGenic predicts an AtRTD3-supported isoform absent from TAIR10

unspliced intron in predicted UTR 4,505,796–4,505,914

TAIR10: 0 of 2 transcripts leave this intron unspliced | AtRTD3: 6 leave it unspliced in the UTR, 8 splice it out (of 14 tx)

TAIR10 reference
 TransGenic (reproduced)
 AtRTD3 (supports highlighted feature)

TransGenic (novel isoform)
 AtRTD3 (exact chain match)
 AtRTD3 (other isoforms)
